# LTL Shipments

- Hercules focus is cross-border LTL. Many US domestic lanes are also serviced.
- Our unique “no break-bulk” structure will help to reduce transit times
- Hercules network reduces damage or misrouting
- Traditional hub-and-spoke networks cause shipments to be touched many times. Each touch presents another opportunity for the shipment to sustain damage

The Strength to Carry Your Reputation™

# New trailers help reduce damage

- Hercules innovative no break-bulk service to Canada reduces handling points associated with conventional US LTL carriers
- Effective trailer loading is also an area LTL carriers can reduce damage of products which do not stack or mix nicely in a trailer
- Hercules new trailers have retractable load racking system built into the trailer at 2 foot increments
- This allows pallets to be placed above an odd object below without damage to either item

**The Strength to Carry Your Reputation™**

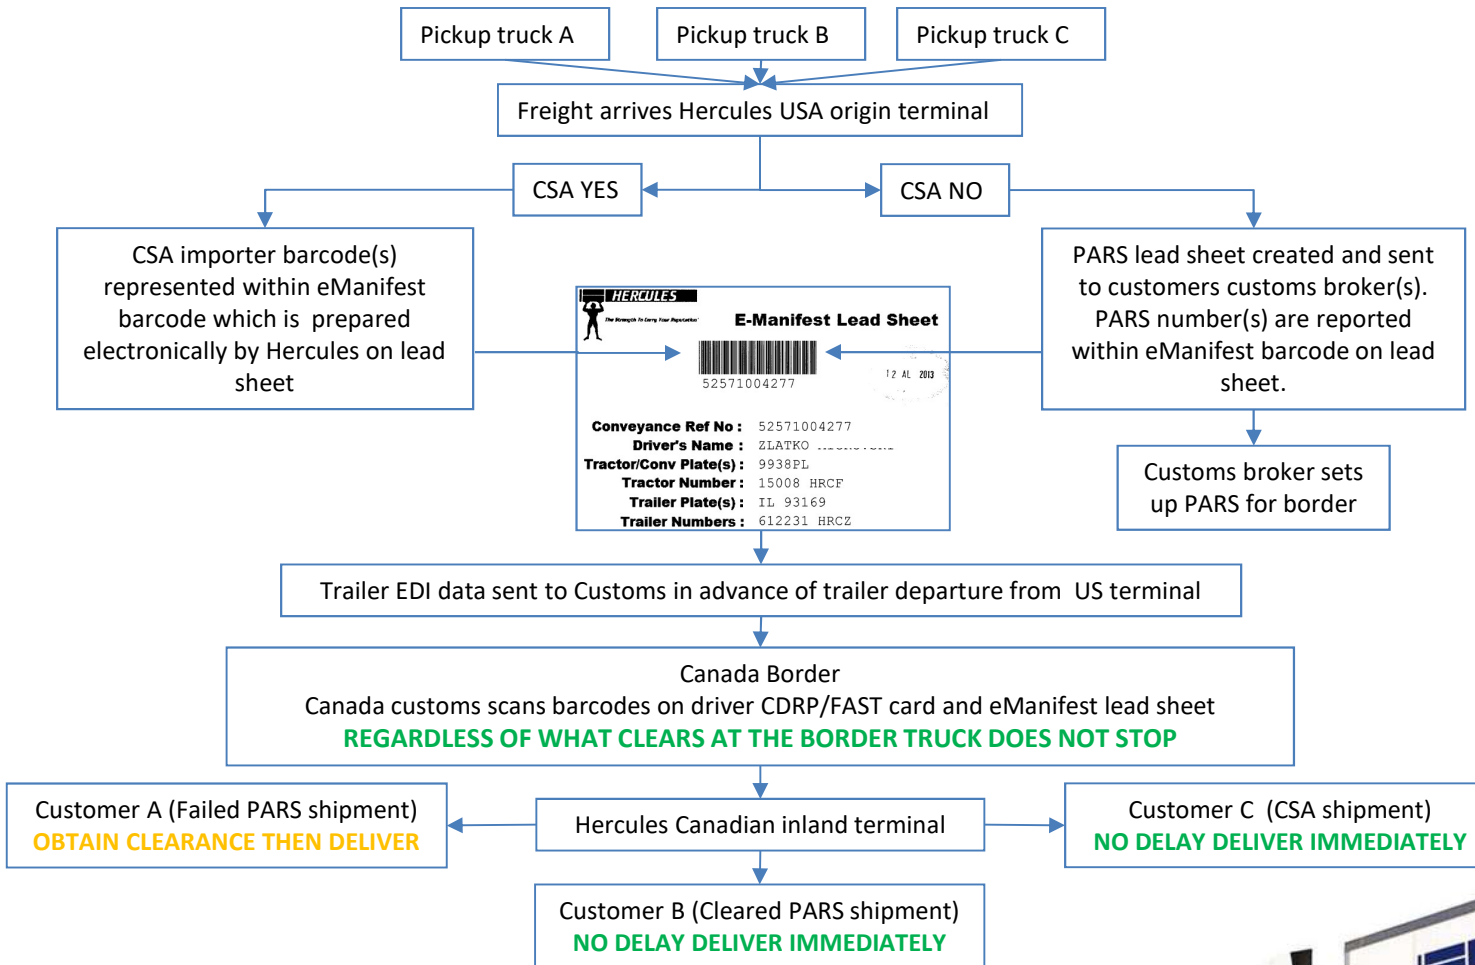

# A leader with CBSA (Canada Border) programs

- eManifest implementation in March 2013. Regardless of what clears at the border our trailers proceed inland to our terminals
- All Hercules line-haul drivers are CSA (Customs Self Assessment) approved
- Hercules has an automated electronic process which determines shipment eligibility for those CSA importers with both CSA and non-CSA vendors

**The Strength to Carry Your Reputation™**

# No border delays with eManifest platform

\* Hercules can move CSA and non-CSA shipments on the same trailer
